

PRESS RELEASE
January 27th - 2014 - France

DIMO MAINT SIGNS A DISTRIBUTOR AGREEMENT CONTRACT FOR ITS CMMS SOLUTIONS WITH ICON TECHNOLOGY PROJECTS & SERVICES LLC IN THE UNITED ARAB EMIRATES.

Publisher of a scalable range of software solutions for the maintenance management, DIMO Maint announced the signing of a distribution agreement for its CMMS software (Computerised maintenance management system): Micro Maint, Mini Maint, Maxi Maint, and Axel Maint already popular among more than **2,000 customers worldwide**. The products will be offered by **Icon Technology Projects & Services LLC** on the United Arab Emirates market to complement the enterprise resource planning (ERP) products it sells to business sectors as diverse as food and beverage, chemicals, pharmaceuticals, plastics, healthcare, etc.

Jean Paul GENOUX, Managing director at DIMO Maint, is completely positive about the partnership: *"We are proud to work with partners **that value and demonstrate the depth of industry experience** that has helped make us a leading provider of maintenance management systems. **Icon Technology Projects & Services LLC has a proven track record of working with a broad range of companies across many industries** with a view to **increasing their efficiency and reducing their costs**. DIMO Maint will help them to do this to an even greater extent and we are confident of **a long and successful relationship**."*

As a source of savings, the maintenance of equipment and assets is a strategic issue for companies. Indeed, an efficient maintenance enables **to better recover the investments and to avoid critical failures for instance, generating delays in deliveries or service disruptions**. Therefore, the company must have **effective means to secure and make its equipment sustainable at the least cost**.

*"With its scalable range of software solutions, DIMO Maint responds to the **needs of small businesses, as well as of those of major international groups** who are looking for **easy to use and fast to deploy** solutions for their subsidiaries. We consider that **the potential is huge in the Middle East**. We believe strongly in the association of **Icon Technology Projects & Services LLC as an expert with our range of CMMS**." says Sandrine Klimezak, Partner Manager at DIMO Maint.*

*"We're excited about **expanding our product range with a progressive new partner from Europe**," says Behla Husamuddin, Director at IT-PRO. *"This part of the world represents a \$3 trillion economy and we **anticipate prolific growth in the maintenance management sector**, particularly with the recent announcement of the World Expo 2020. We're looking forward to serving our new and existing clients with our new partner."**

“This region is at the early stages of adopting CMMS solutions.” says Fazle Nadeem, Senior Project Manager IT-PRO. ***“With DIMO’s 20 years of experience in serving global clients worldwide, its portfolio of software solutions will prove to be very effective to companies across various verticals. We are confident that the IT-PRO team will add value to clients throughout the region through the combination of DIMO’s world renowned solutions and our consulting experience.”***

As a standard, the application includes the inventory and classification of equipment, the management of contracts, the management of work requests (WR), the automatic management of preventive maintenance (PM), the management of work orders (WO), the management of stocks of spare parts ordered, the management of budgets, a graphical schedule of maintenance tasks, and the production of analyses and dashboards.
